## Education

---

### University of Illinois

*PhD Economics, MS Statistics*

- Dissertation: "Three Essays in Applied Market Design"

Urbana-Champaign, IL

August 2016

### University of Missouri-St. Louis

*MS Economics*

St. Louis, MO

May 2008

### New York University

*BA Economics*

New York, NY

May 2003

## Employment

---

### National Institute of Standards and Technology

*Economist - Applied Economics Office*

Gaithersburg, MD

September 2016 - present

- Economic research and project management, including developing project plans, milestones, deliverables, and budgets; coordinating interdisciplinary research teams and external collaborations with academia, industry, and government; status reports and briefings for program reviews; and ideation and design of new research projects.
- Project portfolio includes development of econometric, machine learning, computational, and survey methods for the economic evaluation of disaster risk reduction policies and investments, as well as applications of Natural Language Processing (NLP) for human-in-the-loop analysis of technical text.
- Mentoring undergraduate interns, graduate students, and post-doctoral scholars, with diverse backgrounds (physics, engineering, statistics, computer science), as well as building and maintaining university partnerships.
- For FY25: Awarded two project proposals funded by NIST Research Protections Office (RPO) to conduct evaluations of RPO policies, processes, and practices.

### National Institute of Standards and Technology

*Analyst - Diversity, Equity, and Inclusivity Office*

Gaithersburg, MD

January 2022 - Nov 2023

- Internal DEIA support through enterprise-wide outreach, consultations, and engagement, including briefings to staff, management, and senior leadership. External DEIA support through input, review, and launch of Department-level initiatives, as well as engagements with interagency committees and working groups.
- NIST DEIA Strategic Plan development and implementation, including project management for cross-functional working groups; plan authoring and development; developing output/outcome metrics and identifying data sources; developing scorecard templates for implementation.
- Development of DEIA data analytics strategy through prototyping and deploying internal DEIA Dashboard; development of full survey protocol, including IRB and PRA packages as well as survey instruments; and supporting DEIA data needs and requests across the organization.

## Leadership

---

**Earthquake Engineering Research Institute (EERI):** Co-chair, Learning From Earthquakes (LFE) Business Resilience Subcommittee. Jan 2024 - present

**EL DIB Council:** Chair, Internal Working Group. Nov 2023 - present

**DEIA Tiger Team:** Assisted NIST Director with change management for organization-wide DEIA. June 2023 - Oct 2023

**Council for Inclusive Innovation:** Co-lead, Data Collection and Sharing Action Team. March 2023 - present

**NIST Mentoring Program:** Mentor. Jan 2023 - present

**Equitable Long-term Recovery and Resilience (ELTRR) Interagency Working Group:** NIST POC. Contributed to published ELTRR Plan; member of Analytic Subgroup. Feb 2021 - present

**Carpentries:** Instructor and Lesson Maintainer. 2018 - present

## Skills and other activities

---

**Programming:** R, Julia, Python, SQL.

**Languages:** English (fluent), Spanish (native).

**Clubs:** NIST Toastmasters Club; Association of NIST Hispanic Americans.

## Publications (peer-reviewed)
