Education

University of Illinois

PhD Economics, MS Statistics

Urbana-Champaign, IL

August 2016

University of Missouri-St. Louis

MS Economics

St. Louis, MO

May 2008

New York University

BA Economics

New York, NY

May 2003

Employment

National Institute of Standards and Technology

Economist - Applied Economics Office

Gaithersburg, MD

September 2016 - present

- Project management, including developing project plans, milestones, and deliverables; coordinating interdisciplinary research teams; budget management; and status reports for annual program reviews
- Project portfolio includes: economic evaluation and statistical modeling for earthquake risk reduction; empirical, computational, and survey methods for analysis of investing in disaster resilience; and applications of Natural Language Processing (NLP) methods to semi-automated document analysis
- Mentoring undergraduate interns, graduate students, and post-doctoral scholars, with diverse backgrounds (physics, engineering, statistics, computer science)

National Institute of Standards and Technology

Analyst - Diversity, Equity, and Inclusivity Office

Gaithersburg, MD

January 2022 - present

- NIST DEIA Strategic Plan development and implementation, including working group coordination; assisting with plan authoring and development; developing output/outcome metrics and identifying data sources; developing scorecard templates for implementation
- Development of DEIA data analytics strategy through prototyping and deploying internal DEIA Dashboard; development of full survey protocol, including IRB and PRA packages as well as survey instruments; and supporting DEIA data needs and requests across the organization
- Internal DEIA support through enterprise-wide outreach, consultations, and engagement, as well as briefings to both staff and senior leadership. External DEIA support through input, review, and launch of Department-level DEIA initiatives, as well as engagements with interagency committees and working groups
